**Automatic grooving machine**

This machine can make "V" or "U" shaped grooves on the cardboard. The operator loads the cardboard sheets in a pile to the hopper, then he adjusts the distance of the grooving knives and the depth of the groove, and starts the working cycle. The final product will be delivered on the front side of the machine while the cutoff chips will be ejected on the rear side.

- **Materiale utilizzato:** Greyboard.
- **Spessore cartone:** 0.5 to 4 mm.
- **Produzione:** 0.60 mt/sec.*
- **Voltaggio:** 400 Volt 3 phase + N - 50 Hz.
- **Dimensioni:** L= 1950 mm; P= 2100 mm; H= 1650 mm.
- **Peso:** Kg. 1200
