Macchina per montaggio alette su cartelle a tre lembi

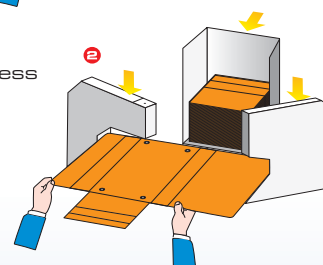

Macchina elettropneumatica a due teste con alimentazione automatica delle alette laterali, inserite in un apposito caricatore verticale a caricamento continuo. A richiesta dal cliente la macchina può essere occhiellatrice o rivettatrice. L'operatore applica un'aletta, poi ruota la cartella e applica la seconda.

Machine for fixing flaps on 3-flaps folders

Electro-pneumatic machine with two heads and automatic feeding of lateral flaps, loaded in a special vertical hopper with continuous feeding. The machine can be supplied for eyeleting or riveting on request of the customer. The operator applies one flap then rotates the folder and applies the second flap.
